

SKILLS DEVELOPMENT SERIES

PERSUASIVE

PRESENTATION SKILLS

2-Day Training Seminar

The purpose of most business presentations is not merely to inform – it is to win support for your ideas, to get buy-in for your proposals, to persuade. In this high-impact, two-day workshop, participants will learn what really matters in preparing and delivering a killer presentation: how to create a clear, concise, and compelling message targeting their audience; how to structure their presentation; and how to use a variety of persuasion techniques. They will also learn how to build rapport and develop presence to connect with their audience, as well as some powerful delivery techniques.

Participants will have the opportunity to deliver short presentations and be critiqued.

They will learn from this as well as from watching and critiquing others. We will also introduce a checklist to guide in crafting future presentations.

Note: This is not a typical presentation skills course. While we will pay some attention to delivery style, we will emphasize fundamental techniques of structure, message formulation, and persuasion techniques. We will not waste time on breathing exercises or tongue twisters. We will make you a much more compelling and persuasive presenter in two days. Workshop participants should expect to be challenged and to encounter new ideas.

OUR EXECUTIVE TRAINER

Mr David Goldwich

David is a “reformed” lawyer who is committed to helping people get what they want by teaching them how to play the negotiation game and be assertive, compelling, persuasive communicators.

David has MBA and JD degrees from accredited and respected bricks-and-mortar universities. He practiced law in the United States for more than ten years, arguing before judges and political, government, and community bodies. He knows how to persuade the toughest audiences. David is trained as a mediator and has managed small businesses as well.

Recognising that lawyers perpetuate rather than solve problems, David began lecturing and training in 1995. He has taught at the tertiary level in the USA and in Singapore. As a trainer, David applies the “80/20 Rule” by identifying the few critical tools necessary for the greatest improvement and presenting them in a form that is easy to learn and simple to use. An engaging and award-winning speaker, David uses humor and stories culled from his own experience as a lawyer, businessman, and father to help people reach breakthrough changes in their personal and professional lives. He is the author of three books and numerous articles in his field of expertise.
